IMMIGRATING TO FINLAND FOR

(VALID 2024-)

INARI

IMMIGRANT'S SERVICE PATH

An integrated immigrant feels like they are part of the community in Inari, and they are committed to their life there. They find meaningful hobbies, work in positions that corresponds to their competence, and develop their skills through purposeful studies. A smooth service process supports immigrants.

GREETINGS FROM THE MUNICIPAL DIRECTOR OF INARI

The municipality of Inari has always been an international area where people have come to visit, live, work and find inspiration. In recent years, Inari has attracted a lot of international tourists, but with regard to the availability of labour, Inari has the same challenges as many other Finnish municipalities. As older age groups retire, competition for skilled workers has become more fierce. The shortage of workers has affected the growing tourism industry, but in addition, the need for experts in the municipality's own service provision is increasing strongly. In particular, social welfare and health care services need more skilled workers as the sector's growth goes hand in hand with the ageing of our population.

Certain sectors, such as tourism and social welfare and health care, can not find enough employees in the local labour market and local jobseekers are not interested in certain positions. This is why the trend in modern working life is to find solutions elsewhere. Especially thanks to tourism, Lapland has already succeeded in active and productive recruitment from abroad. As an immigrant settles into life in Lapland, their challenges include long distances, lack of services, sometimes ruthless weather, a small number of people and different cultures.

Tommi Kasurinen

Municipal Director of Inari

SMOOTHLY INTO ARCTIC LIFE PROJECT

The Smoothly into Arctic Life project of the municipality of Inari aims to respond to the changes in working life and to help people moving for work from abroad make Inari their home. The aim has been to create an operating model for integration, set up services and make sure the services are working as they should. The work was carried out using service design methods, led by experts from Ramboll Finland Oy, and the result is a service path as part of the operating model. The vision for development is "Make Inari Your Home"; in other words, from the perspective of the municipality, the aim is also to get new residents to the municipality.

The project is funded by the European Social Fund through the ELY Centre for Lapland (80%) and the municipality of Inari (20%). The administration of the project has been the responsibility of the business and development services of the municipality of Inari, and one full-time employee has been hired for the project. The project period is 1 September 2019 - 31 October 2021, and the project budget is EUR 150,746.

INARI

IMMIGRANT'S SERVICE PATH

The service path is a vision of a smooth offering of services set up for the needs of people immigrating for work. The service path describes and demonstrates the mandatory activities that an employed immigrant will encounter when moving to Inari, but also the activities that promote commitment and settling in locally. Making Inari their home, as is.

The service path serves as a guide for the development of services, as well as for employers, people working with immigrants and immigrants themselves.

The service path was created as part of The Smoothly into Arctic Life project, and parties identified as essential for different stages and activities were involved in its formation, such as: TE Services, KELA, Tax Administration, educational institutions (e.g. the Adult Education Centre), family services (e.g. day care), companies such as Inari-Saariselkä Tourism Oy, Inari rental housing Oy, municipality: Business and development services, education services, social and health services and administrative services. The service path has been updated in 2024.

IMMIGRANT'S SERVICE PATH

The service path describes and demonstrates the mandatory actions that people immigrating for work will need to take when moving to Inari, but also the activities that promote commitment and settling in - making Inari their home.

The actions are divided into three parts as follows:

BEFORE MOVING

DURING THE FIRST MONTHS

INTEGRATION

PERSONAL IDENTITY CODE

The Finnish personal identity code is used, for example, when dealing with authorities, identification and official documents. You will receive a Finnish personal identity code when your personal data is registered in the Population Information System. You need to register in person at the authority's service point in order to receive a personal identity code. You can obtain a Finnish personal identity code from Migri when applying for a residence permit or registering a right of residence (see Migri) or at the Tax Administration Office. You can also apply for a personal identity code separately from the [Digital and Population Data Services Agency](#) if the prerequisites for obtaining it are met, but you have not yet received a Finnish personal identity code. The nearest DVV office is located in Rovaniemi, and you can book an appointment in advance on the DVV website.

MUNICIPALITY OF RESIDENCE

If you move to Finland permanently, you can register Inari as your municipality of residence, subject to certain conditions, at the [Rovaniemi office of the Digital and Population Data Services Agency](#). Once you have a municipality of residence, you can use the services which that municipality offers only to its own residents. Sometimes a municipality of residence is also needed to use the services provided by state authorities or to receive financial benefits or subsidies. For more information, see the [DVV website](#) and [InfoFinland](#).

TAX ADMINISTRATION

If you live in Finland for more than 6 months, you will need a tax card for when you receive a salary or other income (e.g. Kela benefits). www.vero.fi

If you are staying in Finland for a maximum of 6 months, your employer will charge 35% of income tax from your salary, or you can apply for a tax card from the Tax Administration.

You need a Finnish personal identity code to get a tax card.

You need to register in person in order to receive a personal identity code. You can get a personal identity code by visiting the Tax Administration Office in Rovaniemi.

You can book an appointment for an individual or a group for the Tax Administration Office in advance from the national telephone service of the Tax Administration, and at the same time, ask which forms and documents you will need for the visit.
